Choosing the right underwear (base layer) is essential learn how moisture-wicking materials, fabric weight and fit affect comfort in the outdoors. In order to stay dry and comfortable, you need to choose the right underwear (base layer).

Discover Helly Hansen women s base layer collection tops. Helly Hansen has been tested and proven in the world s harshest environments for over 140 years. Discover the brand with staying power.

Icebreaker has the world's best merino wool base layering system. Our men's base layers feature only the world's finest merino wool, sourced from New Zealand. Merino wool makes for the best base layer due to its moisture wicking properties and industry-leading breathability, making it one of the best skiing base layers.

Fly Base Layer Pant. Been riding for 20+ years and always had chafing and wear from knee pads or braces. Saw these for 40 dollars and though it was kind of a high price but bought anyway. I have wore these things many times over the last few years and they are worth the money. No more chafing or wearing on my old knees from pads.

The anti-odor polyester knit fabric features FlashDry™ Eco fibers to wick sweat away from the skin and dramatically speed drying time. Crafted with mechanical stretch for improved range of movement under mid-layers.

HH Lifa light is a performance base layer, delivering light weight insulation and comfort for everyday use and high performance activities. HH Lifa light constructed with 100% Lifa fiber is quick-dry, very breathable and super lightweight.
